

Questions for the Private Sector stakeholders

Preamble

- Agenda 2063 is Africa's 50-year development blueprint for inclusive growth and sustainable development, adopted, in January 2015. The Agenda that embodies the seven aspirations of the African people is implemented through five 10-year implementation plans.
- The First Ten Year Implementation Plan that commenced in 2014 comes to an end in 2023. To this end, the African Union Executive Council called for the evaluation of the First Ten Year Implementation Plan and the development of the successor ten-year plan of Agenda 2063, dubbed "the Special Project". The report of the FTYIP and the plan of the successor ten-year plan will be presented to the AU Assembly in February 2023.
- As a key measure for deepening ownership and collective responsibility of Agenda 2063, the execution of the Special Project will be characterised by inclusive national consultation processes that will embody joint assessment, reflection, and learning among state and non-state stakeholders, especially at the country level.
- The national multistakeholder consultation processes will be guided by a set of specific questions for the various stakeholder groups. The outcomes of the consultations from all groups will be analysed and a synthesis national consultation report prepared by the Ministry in charge of national planning and submitted to AUC and AUDA-NEPAD latest 15 September 2022.

Questions

- In your view, what have been the major achievements realised in the implementation of Agenda 2063 over the past ten years?
 - What has supported the achievement of the key results?
 - What have been the main challenges/constraints?
 - What role did the private sector play in the implementation? What could have been done differently?
 - What lessons can we draw from the implementation of Agenda 2063?
- What should the Second Ten Year Implementation Plan of Agenda 2063 (2024 – 2033) focus on / prioritise?
- What must be done to ensure effective and successful implementation of the Second Ten Year Implementation Plan?
- What role should the private sector play in the Second Ten Year Implementation Plan?
